

Manufacturer:	Schmid
Model:	Al-etcher , Premium line
Year of Manufacturing:	2011
S/N:	21-10-1251
demounted (yes/no)	No
decontamination necessary (yes/no)	Yes
available from:	01.01.2018
Settings (SW Version, layout, facilities, ...):	SPS for controlling the process machine
	17" display
	Touch pad
	Operating Voltage: 400 V
	Operating frequency: 50 Hz
	Power consumption: 26 kw
	Current Consumption: 63 A
	Substrate size: 0.5 to 3.0 mm
	Used chemicals: phosphoric acid, water, nitric acid
	Converge System between modules
	Cassette loaders and unloaders and a rotary table for sending out the substrates
	Speed: 0.5 m/min
Attachments (pumps, purifier, monitoring...):	Pump
	Filter
	Cartridge
	Flowmeter
	Temperature control
	Safety thermostat
	Level control "immersion zone"
	Level control
	Cabinet for supply containers (1000 litres)
